OHSLA Webmaster Report

- The Wild Apricot subscription for the website will be due July 21, 2020. Our base subscription costs \$540. Since OHSLA decided not to transition to Wild Apricot's Payment System yet, an additional 20% Payment System Servicing Fee will also be applied to this year's fee, resulting in a new combined price of \$648.00.
- The 2020 Spring meeting registration was opened and then re-tooled for the online program held on April 17, 2020. The event page, registration, and messaging were modified accordingly. The materials for the business meeting on May 22, 2020 have also been added to the event page, so that they are handled consistently with previous meetings and are located where members would normally expect to find them, even though the program and business meetings were held on different dates.
- In December 2019, the OHSLA Board was asked for a list of organizations associated with currently active OHSLA members. As a result of that request, the board also discussed ways to visualize member library location data and perhaps make it available to members on the website. The webmaster prepared a [sample map](#) using library locations and Google Maps. Note that it's possible to color code the plot points by categorizing the data in different ways within the spreadsheet (location, type of library etc.) A final version could also be expanded to include non-member hospital libraries.
- Wild Apricot has made changes to their administrative platform. Navigation has moved from the top of the page to a column on the left. To move between modules, use the home icon on the top left side. These changes apply to anyone working within the administrative functions of the platform and do not affect the navigation of the public-facing website.
- The webmaster will do web accessibility testing for our OHSLA site this summer and report any issues that cannot be resolved within Wild Apricot to the board.
- New members since December have been added to the listserv:

Holly Birk

Jeff Gluff
